

A Word from your Service Coordinator

Easter blessings to you all! Christ has risen, He is truly risen! Hopefully you have found connections to prayer sites and online Masses but if not you might try these: *Live-stream Mass* [EWTN](#), *Stations of the Cross: [for children](#) the Rosary [a chart](#) or [video](#).* The St. Augustine School community consistently answers the call to help others. During Lent we focused on Coins for Kids where everyone worked on saving money to support the [Notre Dame](#) and [Augustinian](#) missions. At some point we will put together all that you have been saving and get the money off to those organizations to support their programs. Since we won't be together for a while I challenge you to continue reaching out to help others in as many creative ways as you can think of. Doing chores at home with a smile or even before being asked would surely make your house a happier place. Many of you made cards a few weeks ago, but that doesn't need to be a one time activity. Who else could use a kind word or deed? On one of my neighborhood walks a young girl was writing an inspiring chalk message on the sidewalk, "*Don't let the world spoil your smile, but let your smile make the world a better place.*" Another house had teddy bears lined up inside a window with arms widespread offering love to all the walkers going by. The ideas of spreading kindness are only limited to your imagination. I would love to hear and perhaps see in photos what you do to help keep God's love alive in others' hearts during these days of isolation. Continue to pray during the day and evening at mealtimes and for each other's needs to stay safe and healthy. God is always ready to listen. Peace! mferguson@staugustineandover.org
